<sup>a</sup> End of pilot target goals set by TFQ Clinical Workgroup of 5 percentage point increase from baseline.		*Changes have been made in the denominator to address issues surrounding recommended frequency for testing in children with type1 diabetes which prevents annual reassessment. Only adults and children 16 years of age and older have been considered for these 3 measures.			**All measures have been revised based on system changes and a review of query methodology from the original measure results reported in 2008. <sup>b</sup> NCQA Commercial Heidis 2005 National Average.
